

Iodio P2 Surgical scrub brush

PRODUCT SPECIFICATIONS

Iodio P2 Surgical scrub brush

Hand hygiene is the basis of correct and effective infection prevention in the hospital environment. Surgical hand antisepsis, to destroy transient micro-organisms and inhibit the growth of resident micro-organisms, is routinely carried out before undertaking invasive procedures. Antisepsis may reduce the risk of surgical site infections in patients.

Description:

IODIO P2 is a single use hand scrub/brush with nail cleaner impregnated with Povidone Iodine antiseptic solution at 7.5% (0.75% free iodine).

Use:

Antimicrobial Skin Cleanser. For pre-operative surgical hand disinfection, antiseptic hand washing on the ward. For external use only.

Biocidal Activity:

Direct action towards bacteria gram-positive and gram-negative
